

## TECHNOLOGY STUDENT ASSOCIATION PLAN OF WORK

Date	Task	Time involved	Team member (student initials)	Comments
1. January 29, 2020	Added Products to website and was responsible for adding a few graphics.	4 hours	H.P	This member added the products visible on the page and was responsible for organizing the information in a neat and orderly manner.
2. January 20, 2020	Browsed the internet and was in charge of finding products which were appropriate for our website.	2 hours	R.D	The member was very diligent and found ways to describe the products based off of the reviews and used her judgement to decide what products were the best choice.
3. February 15, 2020	Was in charge of editing the pictures and added references to the site.	3 hours	S.M	This job was crucial because graphics played an important role for the team to get a good score.
4. February 26, 2020	Added Cart to website and tweaked it to increase professionalism.	2.5 hours	A.T	The goal of this design is to market goods like a real business. In order to maintain that professionalism a few changes needed to be made.
5. March 1, 2020	Completed all forms needed for submission.	1 hour	A.T	All of the requirements for this website which were listed in the provided documents were met because of this member's dedication to ensure that the team succeeds.
6. March 4, 2020	Was given the responsibility of adding details to the Home Page such as the suggestion form and about us portion.	1 hour 15 minutes	R.D	These details gave the website some extra flair.
